

iTEE (“Internet Theological Education by Extension”) Global is a ministry whose mission is bringing relationally-driven biblical ministry education to church leaders who do not have access to it. There are an estimated 2 million pastors worldwide who have no formal theological or Biblical training whatsoever due to reasons such as poverty, distance, and language. Using online classes and face-to-face seminars iTEE equips and strengthens these leaders, and through them, their churches. With the Covid pandemic, the online teaching ministry has grown exponentially and iTEE is now providing Biblical education to leaders from nearly 30 countries. Family Bible Church has supported this ministry since 2018.
